

Hi Madam

This serves to inform you that I received a service to the burial of my brother from Everest .

The service was very prompt and appropriate the first time. The staff from the reception over the telephone to those that handled the body were just perfectly meeting my needs.

I was assisted like I was the only client.

All my needs and those of our family were perfectly met

Our needs and expectations were met and exceeded.

The service has automatically marketed itself, mine was just to direct and give contacts to the many people that enquiries

My brother was buried like a king.

The family members also requested that Everest should be home for all of us.

I fully support that too.

Everest: You really have what it takes to reach people and comfort them.

May the Lord almighty bless you.

IM Moloji
